LE BOYEN'S DISINFECTING FLUID.

MURKIN, FOULKE, ROGERS & CO., Company.

sole proprietors of the celebrated

LE BOYEN'S DISINFECTING FLUID.

Used to save life, to arrest the impulsive and invaluable

losses of war, and to discover the greatest discovery of the age—presented in

Washington, December, 1847.

The above invaluable preparation, which entitles the in-

ventor, to the name of the benefactor of the whole human family,

passes the power of immediately destroying the most

offensive odor, from whatever cause arising.

In the case of the **Water Cisterns**, **Casks**, **Cans**, &c., of impure

gases, in the sick chamber this Fluid will be found invalu-

able to remove the smell, and when applied to the nose, of the

body, or from the nostril, will be at once at a

speed, and should the disorder terminate fatally, the corpse

will be preserved in a state of perfect liberty, by

using this Fluid, without becoming in the slightest degree offensive.

Capitals of emigrant ships will derive incalculable ad-

vantage from its use, for disinfecting and for blighting

for blight water.

It is also serviceable for steerage of emigrant ships,

and for the removal of vermin, and thus rendering

sail a valuable article.

The undersigned, desire to bring this article into public

use, and to render it available to our countrymen

in the public service.

Very truly your obedient servant,

WM. W. STEWART.

WASHINGTON, January 6, 1849.

To Dr. A. J. SCHWARTZER, Jr.

Dear Sir: I take great pleasure in stating that, about 18 months since, I used my Compound Extract of *Sarsaparilla* as a remedy for *General Debility*, under which I had been laboring a long time, and that a few bottles restored me to sound health, which has continued to the present time.

Very respectfully,

PERRIN WASHINGTON.

New York, September 13, 1848.

Dear Sir: Having used your Disinfecting Fluid on my last voyage in the Atlantic, I found it to be a most valuable article for destroying the effluvia from the Water closet.

It is also valuable for the passengers to use in their state rooms, particularly in cases of sickness. I think it best to disclaim all responsibility.

Yours very truly,

J. JOHNSTON,

Master Steamer Washington, Of Ocean Steam Navigation Company.
